Significant Events

Family Practice Register

The 2005/06 work year of the College was significant for the announcement of the MOH Public Consultation Paper on the Proposed Establishment of the Family Physician Register. This generated passionate discussion during the MOH initiated feedback sessions with DMS Prof Satku and SMS Health Dr Balaji Sadasivan.

Para. 22 of the Public Consultation Paper stated that “setting training standards alone without addressing other practice related issue may prevent us from achieving the desired outcomes” This view was reiterated by the doctors during the MOH and College initiated feedback sessions as well as by the 20th Council in its feedback to the MOH on the Public Consultation Paper.

Courses

It is anticipated there will be increased demand for the GDFM course and MOP modules from practicing GPs to enable them to fulfill the criteria to be on the FP Register. The College has made preparations to increase capacity for the provision of these courses in collaboration with the two health clusters.

Constitutional Review

The President of our College had advocated in the Sept 2005 issue of The College Mirror that a review and amendment of the College Constitution be conducted. A Constitution Review Committee was formed and the proposals for the moment are (1) the change of the quorum to 50 voting members or 1/8 of the voting membership whichever is the lower instead of the 1/8 membership requirement, and (2) the use of voting methods that will facilitate greater participation of the eligible members. Further amendments will be considered when the Ministry of Health’s Family Practice Register is finalised.

Continuing Professional Development Activities

Continuing Medical Education

The College is represented in the SMC CME Co-ordinating Committee and works closely with the Singapore Medical Council to ensure that the quality of the CME events is acceptable. It continues to advise the SMC on the accreditation of Core Family Medicine CME events through its panel of FM CME advisors appointed by the College. The Singapore Medical Council had formed an Accreditation of CME Providers Workgroup. It is in the process of revising the criteria as to the bodies that should be allowed to apply for accreditation and organise CME activities.

E-Learning

The E-learning programme launched in 2003 has been incorporated into the GDFM training programme. It will take on an increasingly important role as the IT adoption rate of doctors improve. The cost effectiveness of e-learning in reaching CME and professional development standards will make this an increasingly attractive learning method. The e-learning platform of the College is undergoing a major revamp and will be ready to take on more users by January 2007.

Family Practice Skills Course

With the College increasingly taking on the role of evaluating and accrediting CME programmes, it has consistently adhered to the policy of not co-organising and providing nominal sponsorships to events organised by healthcare service providers and commercial organisations. The College had also stopped organising ad-hoc events and instead focused on structured courses that are crafted to meet the needs of practising family physicians. The Family Practice Skills Courses was developed for such a purpose.

Taking into consideration our limited resources and manpower, the College set itself to produce a minimum of 4 courses per year. Where resources permit, more may be conducted within a year.

Components of the Course:

- Distance learning course – six units
- Two Seminars
- One Clinical Teaching Session
- Reading papers: A Selection of 10 papers will be presented. Course participants are advised to choose up to five for self-study.

The components may vary from course to course according to requirements.

As of 31st March 2006, the following family practice skills courses have been organised:

- Vaccinations and Prevention of Infectious Diseases
- Clinical Quality
- Development in Diagnosis and Management
- Women's Health

INTRODUCTION

The major event of the year for the family medicine fraternity was the announcement of the proposed family physician register. It signifies a commitment of the Ministry of Health to transform primary care and to develop family medicine to the level that it will make significant contributions to the effort to meet the challenge of chronic diseases. The programme to improve standards and skill levels is the opening move of a series of initiatives that will transform primary care. Family medicine will soon take on its rightful role in improving the health of Singaporeans within our national health care delivery system.

The Censors Board finds new impetus to refine criteria and standards. It will work closely with the Interim Joint Committee of Family Medicine Training and eventually the Family Physician Accreditation Board. We urge members to support this initiative which will eventually restore the esteem of the family doctor in the eyes of our patients and our peers.

Report of The Administration Committee

1 April 2005 - 31 March 2006

Chairman : Dr Cheng Heng Lee
Members : A/Prof Cheong Pak Yean
 : Dr Lee Kheng Hock
 : Dr Arthur Tan Chin Lock

The 2005/06 work year of the Secretariat was significant for the decision by MOH to locate the secretariat for the Joint Committee of Family Medicine Training (JCFMT) in the College.

JCFMT oversees the operation and implementation aspects of the training programmes to support the proposed Family Physician Register. The MOH will provide a budget to support the secretariat for the initial four years after which it is expected to be self funding and be fully integrated with our own College secretariat.

This move necessitated renovations to the College premises to cater for the expanded secretariat. With increased workload more staff was recruited including eventually a Manager.

The secretariat had a busy year with increased membership, more doctors registered for the various courses as well as innovations, additions and changes made to the various programmes. The staff old and new under the leadership of our Executive Director Dr Lee Kheng Hock responded admirably to the challenge with professionalism, dedication and initiative. They deserve our deepest appreciation and thanks.

During the year our Senior Administrative Executive Ms Emily Lim resigned to pursue her personal career development. We thank her for the years of excellent service she rendered to the College. We give her our best wishes.

Ms Jace Pang and Ms Ng Minfen were promoted to Senior Administrative Executive and Accounts & Administrative Executive respectively. Katy continues as Senior Administrative Assistant.

Ms Fan Yingshi and Ms Tessa Koh were recruited as Administrative Officers.

Chairman : A/Prof Cheong Pak Yean
Vice-Chairmen : Dr Lee Kheng Hock
Members : Dr Mathew Ng Joo Ming
: A/Prof Goh Lee Gan
: Dr Jonathan Pang Sze Kang

A/Prof Cheong & Dr Lee represented the College in the following Singapore Medical Council (SMC) committees

- The SMC CME Co-ordinating Committee
- The Accreditation of CME Providers Committee

A/Prof Cheong's place was taken over by Dr Matthew Ng and Dr Jonathan Pang in the above two committees respectively as from November 2005.

COLLEGE'S ROLE IN SMC-CME SCHEME

The College continues to support the SMC CME programme by participating in the SMC CME committee and advising on the CME needs/standards of family physicians in particular. In addition, it is represented in the committee that is working out the criteria for the accreditation of CME Providers.

COLLEGE'S ROLE AS FM CME ASSESSOR

Since May 2002, College has assisted the Singapore Medical Council in assessing the FM CME event applications for core FM CME points. The system of CME advisors set up continues to function well. The list of accredited FM CME advisors was updated this year and comprises Collegiate members and Fellows of the College who have agreed to be in the scheme. The members of the College CME Assessors' Board (CCAB) and the Accredited FM CME advisors are listed in the appendix to this report.

474 applications for core FM CME points were received and approved in calendar year 2005 as shown in table 1.

COLLEGE'S ROLE AS CME PROVIDER

The Family Practice Skills Course (FPSC) is a structured CME programme formulated to meet the increasing need for relevant skills training which complements our College's structured training programmes. It was started to meet the need of better CME training programmes when CME became mandatory on 1st January 2003. It would meet the needs of three groups of doctors:

- Those who attend certain components of the FPSC for Core FM CME. This is likely to be the biggest group;
- Those who attend all the components of an FPSC to qualify for skills certification; and
- Those enrolled in the GDFM who attend it as part of their elective skills course requirements.

Category 1B Applications:

Each FPSC may comprise a mixture of the following components:

1. Distance Learning with verification
2. Lectures
3. Workshops
4. Small group activities including clinical attachments, tutorials, ward-rounds
5. Assessments which can be written, oral, demonstration and/or clinical

The first and second components are published in the Singapore Family Physician and sent to all members as well as those who have registered for the course. To date, 16 FPSC courses have been organised since its inception on 27th October 2002.

The six FPSCs that were held during the year are on the subjects of:

- Obesity
- Vaccinations & Prevention of Infectious Diseases
- Clinical Quality
- Developments in Diagnosis and Management
- Women's Health
- Dementia

Some statistics of participation for these courses held from the period 1 April 2005 to 31 March 2006 is given in Table 2.

E-Learning

The College's e-learning website (<http://www.onlinemedlearning.org>) continues to be used for on-line learning. Completion of the certain e-learning modules is also made mandatory for GDFM trainees. For example, completion of the e-learning module for the examination revision course was made compulsory before in-person attendance of the mock/practice GDFM course this year.

The Singapore Family Physician Journal

For the past one year the Singapore Family Physician continues to be a vehicle for the delivery of the Family Medicine skills course. Doctors on the MCGPS by assessment programme of the College are required to publish a project as part of their summative assessment. These articles and research project by the candidates were published in some of the issues of the SFP and can both be view online as well as printed versions.

The following Skills courses were published in the past one year:

1. Clinical Quality: Vol 31 No: 3, July – October 2006
2. Developments in Diagnosis and Management, Vol 31 No: 4, Oct-Dec 2006
3. Women's Health Vol 32 No:1, Jan-Mar 2006
4. Dementia Vol 32 No: 2, Mar-Jun 2006

Particular mention must be made on the issue of Clinical Quality. This issue provides the reader with all the tools and resources that he can use to improve the Clinical Quality of his practice.

However, the Journal stills lacks on contribution by Family Physicians in practice in the community. I would like to take this opportunity to invite Family Physicians to contribute review articles, and Research projects for publication.

The Publication Board would like to take this opportunity to thank Ms Tessa Koh for her help as editorial assistant of the Journal. She has left us to pursue other endeavors.

Report of the Undergraduate Teaching Committee

1 April 2005 – 31 March 2006

Chairman : A/Prof Lim Lean Huat
Members : A/Prof Goh Lee Gan
: Dr Ajith Damodaran

The Department of COFM conducted a Trainers' Retreat on 16 January 2006 to review the 4-week Family Medicine posting. Arising out of the review, the posting was reorganised so that the students spend a full day on Mondays and Fridays in the campus to learn the fundamentals of family medicine and practice issues. A day of attachment to the community hospital was also included for the first time to provide the interface between hospital care and subacute care. The one day teaching and clinical exposure on palliative care is continued. The one day attachment to private paediatricians have been discontinued as the students felt that the exposure at the polyclinic was adequate to outpatient primary care paediatric problems. Thanks are due to the small band of private paediatricians who have contributed to the teaching of the undergraduates in the last 5 years (from 2000 to 2005).

The continuous assessment is also provided by the GP tutors and the Polyclinic tutors. The four case write-ups and a written end-of-posting test also add to the total continuous assessment mark.

As has been through the years, the posting would not have been possible without the contribution of some 40 GP tutors per batch and some similar number of polyclinic tutors. Then there are also the 15 teachers in palliative care as well doctors in the community hospital. Their names are given on the next two pages.

On behalf of the University and the College of Family Physicians, the College's Undergraduate Committee is grateful for the support and appreciates the efforts of one and all in making the posting useful, meaningful and interesting to the students.

The Host Organizing Committee (HOC) had a watershed year this year in its marketing and promotional activities. The HOC brought on board a marketing manager on a retainer(S\$2000 per month) and commission basis (see attached table) to beef up its outreach to pharmaceutical and health care companies to sponsor the 2007 world conference. Ms Christine Tan with extensive experience in convention marketing and events management came on board in October 2005 and has been actively supporting the committee on its marketing and outreach programs.

For the first quarter of this year, our HOC has been able to secure a generous platinum sponsorship grant from GSK and also commitment of sponsorship of a bursary from NTUC Income covering the registration fees of about 100 family physicians from regional countries. In addition, the committee has also received widespread indications of interest and verbal commitments from various health care companies and pharmaceutical companies totalling more than S\$500,000 at the moment. The HOC is cautiously optimistic that they would be able to raise sponsorships in excess of S\$750,000 by the conference and is working actively to secure more commitments from interested parties.

On the scientific programs end, the scientific committee has put together an extremely interesting program and keynote committed plenary speakers include local as well as quite a number of internationally acclaimed speakers. Committed speakers include foreign dignitaries like Dr Spencer Wells from National Geographic who is the key driver of the largest project to map out the transmigration of DNA out from the African Rift Valley to the rest of the world, Dr Francis Collins who is the key driver of The Human Genome Project from the US, Dr Omi Shigeru from the World Health Organization and a possible Nobel Prize Laureate who is presently checking his schedule and will revert by end June this year. Local dignitaries include Professor Edison Liu from our Genomic Institute of Singapore.

The HOC as part of its obligation to Wonca's house rules hosted the Chair of the last Wonca World Conference (Orlando-2004) in February this year. Dr Dan Ostergaard was particularly impressed with our hospitality as well as the choice of venue for the conference at Suntec City and Convention Center and has given the blessings to go ahead with the booking of the venue for the world conference. The HOC will be sending teams to most family medicine conferences this year and the first quarter of next year to capitalize on the marketing outreach programs to secure more delegates at our conference next year.

Some of the conferences include;

1. Wonca Europe Regional Conference in Florence, Italy – end August 06
2. Family medicine conference in Buenos Aires, Argentina
3. Family Medicine Conference in Brisbane, Australia
4. Family Medicine Conference in Seattle, US
5. American Academy of Family Physicians Scientific meeting in Washington D.C. US
6. Wonca Asia Pacific Regional Conference in Bangkok, Thailand – mid November 06

We will be committing to booking of the Suntec City Convention and Exhibition Center this quarter and hope to have a record turnout at our conference next July in 2007. Our HOC would also like to take this opportunity to invite all college members to turn up in full force to support our conference next year as this would possibly be a once or twice in a lifetime event to be cherished.

Original drawing of College Crest by Dr Koh Eng Soo circa 1971

Heraldry of the College

The upper portion of the badge of the College consists of a golden lion in a passant stance superimposed on the chief which is red in colour.

The lion represents our nation of Singapore. Red is the colour of blood which is the precious liquid on which life depends and which is our mission to save.

The lower portion of the badge consists of a green cross superimposed on a white shield. The green cross symbolizes the humanitarian mission of our College. White is the colour of purity which is our aim.

On the green cross is superimposed an open book and a caduceus. The open book represents knowledge and continued learning and the caduceus is the recognized symbol for the art of healing."
